900TAP
Set of 2 plugs for KICM/
KONT

900CUR
Set of 2 curves for KICM/
KONT

900GIU
Set of 2 joints for KICM/
KONT

Features:

- electromechanical safety edge to stop the gate operator in case of impact
- low voltage watertight micro switches
- standard length: 1,2 and 1,8 m
- controlled version available (8,2k Ω)

Pros:

- ideal for up-and-over garage doors and swing gates
- ensure compliance to EN 12978 standards
- possible wireless application; the safety edge fitted to the leading edge of the gate will offer maximum safety and compliance to EN 12445-12453 standards
