

PF40

200PF40

50 Watt photovoltaic panel complete with adjustable fixing bracket in stainless steel.

200BATMFR

12 Volt 27Ah battery.

200PSP

Support pole for photovoltaic panel.

200RCF

Adjustment board for photovoltaic panel.

200APP

Wall fixing bracket.

200CB

Box for battery 12 V 27Ah.

200BATMFR

200RCF

200PSP

200APP

200CB

FEATURES:

- photovoltaic panels can be combined with all TAU 12 V operators
- no need for power lines or a smart grid
- through the RCF adjustment board, the photovoltaic panel charges and controls the batteries. To ensure the operation of the panel even with cloudy weather, the number and capacity of the batteries will be calculated accordingly.

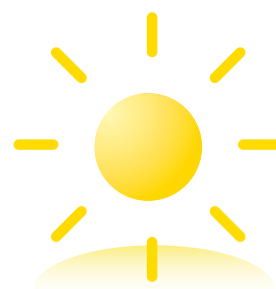

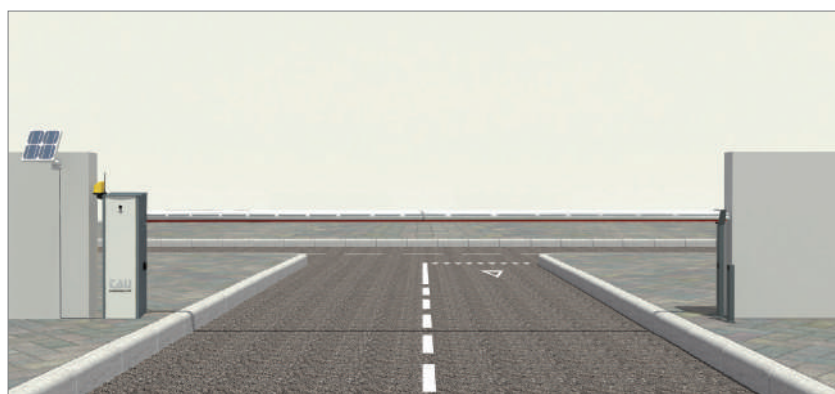

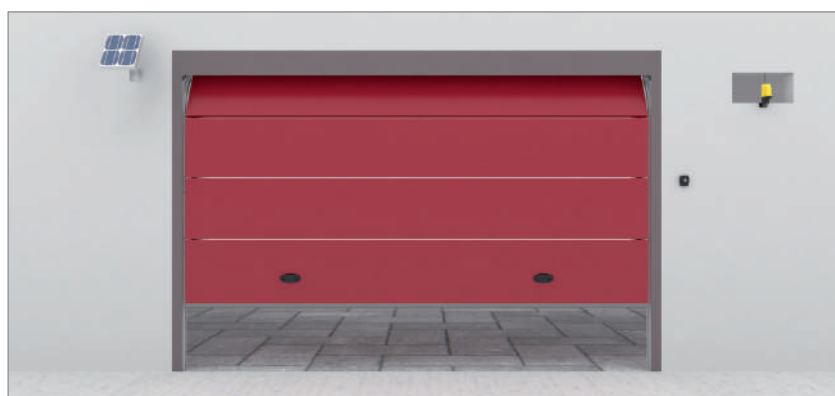

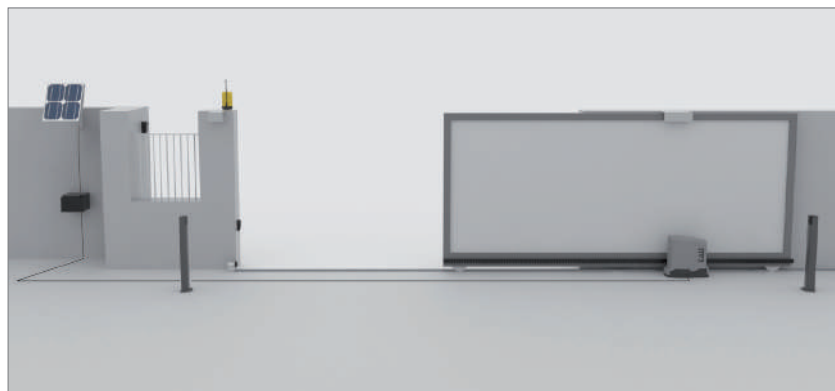

PROS:

- easy and quick installation
- ideal when the installation is far from available power lines
- battery ensures that the gate continues to work even in the event of prolonged cloudy weather
- energy saving and environmental friendly
