# SOLAR POWER PF40

## 200PF40

40 Watt photovoltaic panel complete with adjustable fixing bracket in stainless steel

## 200BATMFR

12 Volt 27Ah battery

## 200RCF

Adjustment board for photovoltaic panel

## 200PSP

Support pole for photovoltaic panel

## 200APP

Wall fixing bracket

## 200CB

Box for battery 12 V 27Ah

### Features:

- photovoltaic panels can be combined with all TAU 12 V operators
  - no need for power lines or a smart grid
  - through the RCF adjustment board, the photovoltaic panel charges and controls the batteries.
- To ensure the operation of the panel even with cloudy weather, the number and capacity of the batteries will be calculated accordingly.

### Pros:

- easy and quick installation
- ideal when the installation is far from available power lines
- battery ensures that the gate continues to work even in the event of prolonged cloudy weather
- energy saving and environmental friendly
