

MADE IN ITALY

SAFETY DEVICES

VLED

LED flashing light

Features:

- available in different supply voltages: 230 Vac, 24 Vdc, 18 Vdc and 12 Vdc.
- 433.92 MHz aerial integrated in all versions
- possibility of fixing to the wall using a special support included

Pros:

- it is also visible on sunny days due to the use of 12 high efficiency LEDs
- Pre-installed Aerial inside the flashing light protected by vandalism
- Practical and flexible it can rotate up to 360 ° when installed using the included standard support
- specific design prevents breakage or damage from atmospheric agents

900VLED

Low voltage 12-18-24 Volt neutral led flashing light for TAU electronic control boards

900VLED-O

Low voltage 12-18-24 Volt orange led flashing light for TAU electronic control boards

900VLED-AT

230 V AC neutral led flashing light for TAU electronic control boards or for universal use

900VLED-ATO

230 V AC orange led flashing light for TAU electronic control boards or for universal use

LAMP

Flashing light

900LAMP1

12/18 V flashing light for TAU electronic control units

900LAMP2

230 V flashing light with its own internal circuit

900LAMP3

230 V flashing light suitable for some TAU control units

900LAMP4

12/18 V flashing light

900LAMP5

24 V flashing light for TAU electronic control units

900LAMP3A

230V flashing light with built-in 433,92 Mhz aerial for TAU electronic control units

900LAMP4A

12/18 flashing light with built-in 433,92 Mhz aerial for TAU electronic control units

900LAMP5A

24 V flashing light with built-in 433,92 Mhz aerial for TAU electronic control units

900LAMPCON3

230 V flashing light with cycle count for maintenance alert

900LAMPCON4

12/18 V flashing light with cycle count for maintenance alert
